Park Manager	Kristen Comella
Trail Steward Captain	Don Hite

### **Newly Installed Board Members**

Jim Bily  
Lori Capshaw  
Dick Coe  
Linda Neff (Treasurer Elect)

# Summary of 2019

## *Supporting the Mission of the Park*

- A.** *To Preserve and Protect.* Snow Canyon State Park offers a unique experience to immerse oneself in breathtaking natural beauty within minutes of the region's urban areas. Friends of Snow Canyon (FOSC) members contribute to Park efforts to maintain trails, protect the Canyon's natural residents (both wildlife and plant life), and preserve the natural and cultural resources within the Park. As a member of Friends of Snow Canyon, you can celebrate that your dues directly contribute to the park's mission and goals, ensuring that this gem of southwestern Utah is responsibly enjoyed by thousands of annual visitors now and for generations to come. To further this aspect of the Park's mission, FOSC members participated in four work parties totaling 29 volunteer hours:
1. May 2, Mustard Pull
  2. May 21, Graffiti Removal
  3. October 15, Graffiti Removal
  4. November 12, Graffiti Removal

- B.** *To Provide Public Awareness and Educational Events.* During 2019, we maintained our focus on providing FOSC members with opportunities to engage with experts to advance their understanding of ecological, historical, cultural, and recreational features of the park and its environs. We maintain an informative website featuring flora and fauna of the Park. We offered the following programs:
1. Written in Time, Part I of a geology presentation by geologist Rick Miller. January 24.
  2. Life on Mars, Part II of a geology presentation by Rick Miller. February 21.
  3. Photography Contest. FOSC sponsored a contest with three categories: People at Play, Along the Trail, and Just for Kids. March 1 - May 1. Winners were announced in May.
